

## INDEX TO VOLUME 3

The star (\*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Abderhalden Reaction .....	105
demonstration by precipitin reaction.....	883
Abortion, epizootic, in mares.....	487
interruption of pregnancy in rat by injection of ovarian follicular extract.....	456
intraperitoneal hemorrhage complicating.....	106
Acid-Base Equilibrium, effect of histamine on .....	103
Acidosis, of hyperemesis, effect of insulin on .....	459
Acne, pathology of inheritance of.....	459
Acriflavine, bactericidal action of.....	310
intravenous use in bacterial infections.....	714
Acromegaly and diabetes.....	833
minimal protein consumption in.....	838
Actinomycosis of tubes and ovaries.....	121
pulmonary.....	866
Addison's Disease .....	446
amyloidosis of adrenals as cause of.....	843
changes in suprarenals in.....	862
Adenocarcinoma, multinucleated giant cells in .....	908
Adenoma of islands of Langerhans.....	320
of parathyroid .....	352
Adenosarcoma, diffuse, of colon.....	891
renal, in young children.....	*1
Adiposis Dolorosa .....	107
Adrenals: See Suprarenals	
Agglutination: See also Bacillus; Blood groups; Enterococcus; Tularemia, etc. relation of bacteriophage to.....	875
Agglutinins, production of.....	546
Albert, H.: Technic of examination of feces for amebas and other intestinal protozoa .....	*235
Alcohol content of human brain; its relation to intoxication.....	*218
determination of.....	895, 895
determination of, in human tissues.....	*75
determination of, new medicolegal problems .....	509
effect on acid-base balance of blood.....	472
poisoning, chronic .....	474
Allergy, bacterial .....	535, 879
idiosyncrasy to hen's egg.....	504
in embryonic chicken heart.....	541
manifestations in frogs.....	324
medicinal, and body protein.....	502
primary, and shock.....	330
Ameba, appendicitis due to .....	737
colitis due to .....	307
differential characteristics of .....	475, 866
pathogenicity of .....	*1009
technic of examination of feces for .....	*235
Amidopyrine, death from overdose of .....	340
Amino-Acids, effect on growth of fibroblasts .....	283
effect of total removal of liver on deamination .....	455
Ammonia and blood sugar .....	473
Amyloid, bodies, staining reactions of .....	346
vital staining of .....	346
Amyloidosis .....	115
experimental .....	711
Amyloidosis—Continued	
idiopathic .....	1045
local, of urethra .....	856
of adrenals, as cause of Addison's disease .....	843
Anaphylatoxic Properties in guinea-pig serum on long storage and on shaking .....	330
Anaphylaxis, acquisition and loss of hypersensitivity in early life .....	320
active, effect of suprarectomy on .....	135
active, in turtles .....	542
anaphylactic antibody .....	503
following injections of placental extracts .....	140
heparin inhibition of .....	880
heterologous corpuscular .....	497, 724
influence on fluid in peritoneal cavity .....	141
lipoids in .....	329, 503
local, production of gastric ulcer by .....	321
passive, in hemophiliac .....	320
passive, of turtles and guinea-pigs using immune serum from chickens and rabbits .....	541
pollen immune serum .....	880
production of, in blocked animals .....	322
quantitative study of interaction of atopic reagin and atopen .....	325
skin reactions and passive transfer of horse dander sensitiveness to antigens of horse dander extract .....	324
Anemia, congenital, with erythroblastosis .....	862
experimental, foreign particles and reticuloendothelial system in .....	465
Gaucher's disease .....	110, 1044
pernicious, color of blood serum in .....	147
pernicious, intestinal origin of .....	476
sickle-cell .....	290, 1075
tests for hepatic function in .....	834
Anesthesia, anoxemia, anhydremia and eclampsia .....	1030
ether, blood cholesterol during .....	282
phosphate metabolism in .....	282
Aneurysm, aortic, massive false .....	1079
aortic, mycotic .....	699
aortic, with invagination of carotid artery .....	352
femoral arteriovenous, from retrograde hypernephroma metastasis .....	1043
multiple, of branches of pulmonary artery .....	1039
mycotic, involving intraventricular septum .....	289
renal .....	851, 900
Angiomatosis, hereditary hemorrhagic .....	335
Anthrax, bacillus, asporogenic, production of .....	720
experimental research on .....	719
immunization by means of anthrax bacilli attenuated with sodium chloride .....	326
intestinal .....	318
Antibodies against homologous circulation lipoids and their relation to Wassermann reaction .....	504
anaphylactic .....	503
combined action of antigens and, on bactericidal power of defibrinated blood .....	1060
formation by experimental injections of hydatid fluid .....	327
formation, does it result as reflex or from resorption of antigen? .....	138
formation, influence of famine regime on .....	505
heterogenic, power of animals of rabbit type to form .....	501
Antigens: See also Antibodies behavior in vivo .....	878

## INDEX TO VOLUME 3

Antigens—Continued	PAGE
disappearance in blood of normal and immunized animals, respectively.....	331
distribution of human hemoglobin and beef lens protein following single intravenous injection in rabbits.....	501
heterogenic, antigenic functions of lipid.....	503
heterogenic, studies in constitutional serology.....	504
sensitized, action in production of specific and isophile hemolytic immune body.....	881
Antitoxin, isolation of substances with immune properties.....	880
Antivenin specificity.....	547
Antrum, infections, staphylococcus bacteriophage in.....	718
Aorta, aneurysm of.....	352, 699, 1079
atheroma of.....	466
imbibition of vital dyes by intima of.....	114
in rheumatism.....	356
rupture into pericardial sac.....	851
spontaneous bone and marrow formation in, of rabbit.....	*73
stenosis of isthmus of.....	698
Aortitis, streptococcal.....	721
Apfelbach, C. W.: Primary sclerosis of pulmonary artery and its branches.....	*801
Apparatus suggestions: (1) test tube plugs, (2) semiporous petri dishes and (3) centimeter counters.....	517
Appendicitis, amebic, with perforation and peritonitis.....	737
so-called chronic.....	*947
Appendix, eosinophilia in.....	*821
traumatic perforation of.....	471
Arachnidism: See Spider Poisoning	
Arachnodactylia.....	290
Arachnoid, fibroblastoma, large hyperostosis of cranium due to.....	1072
Arachno-Perineuritis with syndrome of Froin and pseudotumor spinalis.....	850
Arndt-Schulz Law, biologic action and reaction.....	106
Arsenic in ash of cremated bodies.....	1067
Arteries, carotid, invagination of.....	352
changes in, after death.....	114
chromotropic ground-substance of wall of.....	859
compensation of wall of.....	111
hepatic, effect of ligation of.....	455
of upper extremity, pathologic alterations of.....	858
pulmonary, and its branches, sclerosis of.....	*801
pulmonary, aneurysms of branches of.....	1039
pulmonary, arteritis of.....	843
pulmonary, effect of ligation of.....	847
pulmonary, in rheumatism.....	354
pulmonary, stenosis of.....	740, 855
renal, aneurysm of.....	851, 900
Arteriosclerosis, articles on atherosclerosis.....	862
atheroma of aorta.....	466
atheromatous degeneration of arterial wall; result of hydrodynamic mechanism.....	*404
of cerebral vessels, and hypertension.....	701
of pulmonary artery and its branches.....	*801
with high blood pressure and cardiac hypertrophy in chronic nephritis.....	1040
Arthritis deformans.....	300
Ascaris, dermatosis due to.....	882
lumbricoïdes, in fallopian tube.....	850
Aspergillosis, pulmonary.....	129, 477
Aspergillus fumigatus in pseudotuberculosis.....	1055
Asthma due to hypersensitivity to Pediculoides ventriosus.....	495
fatal case.....	877
hypersensitivity in.....	880
pathogenesis of.....	137, 138
therapy of.....	138
Asystole, circulatory disturbances in.....	1036
Atherosclerosis: See Arteriosclerosis	
Atlanto-Occipital Membrane, accidental perforation of.....	505
Atopic Reagin and atopen, interaction of.....	325
in hay-fever.....	325
Atrophy, arthritic, oxygen consumption of muscles in.....	104
Autopsies, embalming fluids in relation to.....	1069
legal relation of.....	894
methods for topographic representation of pulmonary changes.....	705
on exhumed bodies.....	343
on new-born infants.....	341
Axilla, Demodex folliculorum in normal skin of.....	904
Bacillus, abortus, agglutinins for, in blood of man.....	485
abortus, comparison of strains of.....	484
abortus, in cow's milk.....	313
abortus, uadulant fever from.....	478
abortus-melitensis group, method of differentiating.....	523
acidophilus, cultural characteristics of.....	517
acidophilus, surface tension studies with.....	519
aertrycke, cultures of.....	309
anthracis: See Anthrax, bacillus	
botulinus: See Clostridium botulinum	
bronchisepticus, in snuffles.....	125, 717
bulgaricus, surface tension studies with.....	519
coli, bacteriophage, activity in synthetic medium.....	481
coli, bacteriophage in urinary infection.....	478
coli, growth, effect of sodium ricinolate on.....	519
coli, involution forms of.....	871
colon-aerogenes group, differentiation of.....	124
colon-aerogenes group, fermentation of cellobiose by.....	311
diphtheriae: See Diphtheria, bacillus	
enteritidis, soluble antigens of.....	546
Friedländer's, classification of.....	309
Friedländer's, immunological relationships of encapsulated and capsule-free strains of.....	878
Friedländer's, immunological relationships of cell constituents of.....	879
fusiformis, biology of.....	538
fusiformis, filtrable phase in life history of.....	1048
gas, action of cultures of.....	713
leptisepticus, biology of.....	479
leptisepticus, in snuffles.....	125, 717
leproe: See Leprosy, bacillus	
paratyphoid enteritidis group, in food poisoning.....	134, 876
paratyphosus B, effect of soluble toxic substances of, on intestines.....	124
pestis caviae, experimental bacteremia and plague from.....	867
pestis caviae, virulence of overgrowth in lysed cultures of.....	868
protoe.....	722
pyocyaneus infection in infants.....	874
radiobacter, evolution from mixed cultures of B. and Pseudomonas radicicola.....	544
salmonella group, human infection and intoxication by.....	1048
salmonella group, micro-organism belonging to, isolated from epizootic.....	316
salmonella group, resistance to bacterial infection.....	535
salmonella group, variation of.....	1052
Shiga-Kruse: See Dysentery, bacillus	
subtilis, microbial dissociation in.....	543
tetani: See Tetanus, bacillus	
tuberculosis: See Tuberle Bacillus	

## INDEX TO VOLUME 3

Bacillus—Continued	PAGE
typhoid group, culture mediums for differentiation of.....	484, 547
typhosus: See Typhoid, bacillus	
welchii, hemotoxin, oxidation and reduction of.....	323
Back, suicidal stab wound of.....	1068
Bacon, A. L.: Biometrical studies in pathology; racial and age incidence of cancer and other malignant tumors.....	*963
Bacon, C. M.: Primary sclerosis of pulmonary artery and its branches.....	*801
Bacteremia, experimental, in rats.....	867
Bacteria, acid-fast, attempt to enhance virulence of, in scorbutic guinea-pigs.....	1056
acid-fast, cytomorphosis of.....	126
acid-fast, serological relationship of.....	496, 723
affected by heatresistant bactericidal substances.....	502
anaerobic, blood-agar plate for.....	124
anaerobic, from African poisoned arrows	515
anaerobic, in nasopharyngeal washings.....	516
chemical study of.....	475, 478
culture, blood-clot digest medium for.....	523
culture, inhibition by some amino-acids and its bearing on use of tryptic digests as culture media.....	127
culture media.....	148
culture, potato utilization as indicated by hydrogen peroxide.....	517
detection of changes in gelatin due to.....	715
dissociation, and mutation myth.....	542
dissociation, homologous immune serum in.....	542
dissociation, in <i>B. subtilis</i> .....	543
drug fastness in relation to resistance toward familiar germicides.....	485
effect on chemical composition of surrounding menstruum.....	519
effects of roentgen rays on.....	490
elective localization of, in heart disease.	718
enzymes.....	1050
filters for.....	735
gram-negative, from genito-urinary infections.....	518
granular form.....	317
growth, influence of diphtheria toxin on	545
heredity in.....	1051, 1051
in supposedly sterile meconium.....	547
inanition.....	491
isolation of single cells.....	524
metabolism.....	521, 523
metabolism of abortus-melitensis bronchisepticum-alcaligines group.....	522
metabolism, protein, of <i>C. putrefaciens</i> (McBryde).....	516
mutation myth and microbial dissociation.....	542
spores, heat resistance.....	310, 715
symbiosis.....	123
symbiosis, gas production by.....	482
Bacteriolysin, formation in experimental cultures of spleen.....	137
Bacteriolysis of <i>Bacillus tuberculosis</i> .....	884
Bacteriophage, acquired resistance to.....	881
active against a thermophilic bacillus.....	524
anticolon, activity in synthetic medium.....	481
appearance of tâches vières in.....	881
in urinary infection.....	478
nature of.....	872, 876, 877
relation to agglutination.....	875
staphylococci in antrum infections.....	718
streptococci.....	480, 544, 544
virulence of overgrowth in lyzed cultures of <i>Bacillus pestis caviae</i> .....	868
<i>Bacterium monocytogenes</i> , disease of rabbits caused by.....	486
pneumosintes, in influenza.....	713, 870
Balantidium coli, dysentery.....	*665
Barksdale, E. H.: Effect of lowering blood pressure on myocarditis caused by epinephrine hydrochloride and caffeine in rabbit.....	*658
Bartonella Bacilliformis, cultivation of.....	307
experimental inoculation with and transmission of.....	869
etiology of verruga peruana.....	1050
viability of.....	713
Bile cholesterol.....	287
ducts, cystadenoma papilliferum hepatitis developing from.....	506
ducts, valves of Heister.....	846
from gallbladder, bilirubin content of, in cholecytic disease.....	*993
pigment, formation of.....	838
regulation of flow into duodenum.....	834
Bilharziasis: See Schistosomiasis	
Biliary Tract, function tests.....	148
protozoiasis.....	351
Bilirubin, absorption from intestine.....	1030
formation, liver as site of.....	100
<i>Biological Abstracts</i> .....	693
Biology, action of radium in field of.....	1054
Biometrical studies in pathology.....	*963
Bladder, specific infectious cystitis of cows	308
Blastomyces, infective and toxanomic significance of ascospore stage for.....	123
Blood: See also Erythrocytes; Hemoglobin; Leukocytes; Serum; etc.	
ability to form lactic acid from polysaccharides.....	1037
acetone bodies, determination of.....	513
acid-base equilibrium changes caused by hemorrhage.....	282
acid-base equilibrium, effect of carbon tetrachloride and alcohol on.....	472
albumin, biologic differentiation in rat and mouse.....	884
albumin, globulin and fibrinogen in acute and chronic nephropathies.....	710
amino nitrogen in.....	304
anoxemia, anhydremia, anesthesia and eclampsia.....	1030
anoxemia, experimental.....	842
bactericidal action, combined action of antigens and antibodies on.....	1060
bactericidal action, effect of salt content of blood on.....	1059
bactericidal action, following injections of adrenalin.....	494
bactericidal action, of women infected with the gonococcus.....	499
bactericidal action, on bacteria.....	502
bile salts, quantitative test of.....	514
bilirubin, rapid clinical method for determination of icterus index.....	*409
bilirubin, spectrophotometric determinations of.....	512
calcium, in circulatory diseases.....	287
calcium, in irradiated normal and partially parathyroidectomized rabbits.....	1034
calcium, pathological variations in.....	118
cells, calcium chloride as preservative for.....	514
cells, heterologous corpuscular anaphylaxis.....	497, 724
cells, in endocarditis lenta.....	295
cells, volume in normal and tuberculous males.....	1039
chemistry, after bilateral oophorectomy.....	277
chemistry, after experimental high jejunostomy.....	836
chemistry, during fasting.....	834
cholesterol.....	287
cholesterol, as inherited character; relation to tuberculosis.....	1058
cholesterol, during ether anesthesia.....	282
cholesterol, estimation of.....	473

## INDEX TO VOLUME 3

Blood—Continued	PAGE	Blood—Continued	PAGE
cholesterol, in relation to cancer.....	142	pressure, high, atherosomatous degeneration of arterial wall.....	*404
coagulation .....	1034	pressure, high, basal metabolic rate in .....	279
coagulation, in hemophilia.....	455, 1030	pressure, high, experimental.....	912
color, diagnostic value in pernicious anemia .....	147	pressure, high, pathogenesis of.....	701
comparative studies of sugar, lactic acid and acid base balance of cerebrospinal fluid and .....	555	pressure, repeated readings in laboratory animals .....	911
composition, after ingestion of glucose..	696	proteases, differentiation and characterization of .....	711
composition and total quantity in mountain dwellers .....	287	protein fractions in normal pregnancy ..	863
composition, during pregnancy ..	303, 698, 863	reaction, abnormal, changes in gas metabolism and blood sugar with .....	866
count, convenient apparatus.....	*828	reaction, in epilepsy .....	1048
count, in normal rabbits.....	701	reaction, influence of changes in, upon reaction of tissues .....	864
diseases .....	858	reaction, influence of physical work on, in circulatory diseases .....	287
distribution of chloride and protein between plasma and synovial fluid.....	1046	salt content, effect on bactericidal power ..	1059
filtrates, liberation of absorbed substances from proteins in .....	473	spots, cystodiagnosis of .....	894
globulin, in leprosy .....	863	spots, diagnosis of individual from .....	894
groups, as means of determining racial relationship .....	495	sugar .....	474, 555
groups, complex nature of substance in ..	330	sugar, action of insulin on .....	1036
groups, constitutional serology.....	504	sugar, and ammonia .....	473
groups, errors in determination of .....	883, 894, 1060	sugar, and urea .....	832
groups, in Greenland .....	886	sugar, bird malaria modified by changes in .....	306
groups, in hemophilia .....	504	sugar, changes in, with abnormal blood reactions .....	866
groups, in infants .....	328	sugar, determination .....	118, 899, 1070
groups, in tuberculosis .....	883, 883	sugar, determination, Benedict method for .....	345
groups, individuality of semen in inhibiting specifically isoagglutination .....	879	sugar, determination, comparison of Folin-Wu and new Benedict method for .....	148
groups, inheritance and racial significance of .....	491	sugar, determination, modification of Becher-Herrmann micro-method for .....	346
groups, iso-agglutinins in horse blood .....	504	sugar, determination, new table for .....	511, 735
groups, new designation of .....	1029	sugar, diagnostic significance in ulcer pepticum and carcinoma .....	287
groups, of Laplanders in Sweden .....	728	sugar, hyperglycemia, pressure on central nervous system in relation to .....	834
groups, of mother and fetus .....	330	sugar, hypoglycemia, effect of dihydroxyacetone on .....	102
groups, six anomalous bloods; theory of iso-agglutination .....	734, 1060	sugar, hypoglycemic action of sulphur .....	1037
groups, study of iso-agglutinins .....	327, 504	sugar, in dementia praecox .....	835
groups, tests for paternity .....	507	sugar, in status thymicolympathicus .....	302
hematin .....	474	sugar, preservation of blood for chemical analysis .....	*410
hematopoiesis, histogenesis of extramedullary myelopoiesis .....	301	sugar, recent advances in study of .....	836
hematopoiesis in recurrent fever .....	298	sugar, rôle of liver amylase in regulation of .....	1045
hemocyanin in transport of oxygen and carbon dioxide in .....	472	transfusion .....	501
hemoglobin, color index, saturation index and volume index standards .....	512	transfusion, in mercuric chloride poisoning .....	457
inorganic constituents of .....	117	transfusion, intraperitoneal, of citrated blood .....	831
intestinal putrefactive products in .....	475	transfusion of immune blood in malignant endocarditis .....	498
irradiation, effects on arterial blood pressure and on blood, in vivo .....	850	turtle, formation of giant cells in cultures of .....	461
lactic acid, .....	286, 555	urea and sugar .....	832
lactic acid, in carcinoma .....	304	urea nitrogen concentration of, effect of guanidine and insulin on .....	119
lactic acid, in toxemias of pregnancy .....	281	uric acid, determinations of .....	471, 899
lecithin, estimation of .....	473	vessels, displacement of tissue from central nervous system into .....	339
lipids, antigenic functions of .....	885	vessels, of spleen .....	461
oxygen saturation, influence of physical work on, in circulatory diseases .....	287	vessels, peripheral, in rheumatism .....	107, 356

metabolism in .....	459
vaccination by mouth in .....	499
vaccine, standardization of .....	499
Typhus and mouse typhus, experimental infection and immunization by mouth .....	884
bacteria, invisible and unculturable forms of .....	318
experimental .....	720
experimental, animals immune to .....	720
increase of protein in spinal fluid in .....	472
serologic and chemical therapy of .....	138
virus, filtrability of .....	319
Ultrafiltration through collodion membranes .....	735
Ultraviolet Rays, effect on normal and partially parathyroidectomized rabbits .....	1034
in experimental vaccination .....	720
susceptibility of infective agent of Rous chicken sarcoma to .....	1063
Undulant Fever from Brucella abortus .....	478
Urachus, solid tumors of .....	1039
Urea retention .....	695
Urease, isolation and crystallization of .....	472
recrystallization of .....	473
Uremia, treatment in acute nephritis in children .....	280
Ureter, postcaval; two cases in man .....	203
Urethra, local amyloids of .....	856
prostatic, calculus in .....	152
Uric Acid excretion by kidney .....	286
experimental nephritis from .....	465
Urinary Tract infection, bacteriophage in .....	478
Urine, acetone bodies, determination of .....	513
albumin, determination of .....	897, 899
alkaptonuria .....	474
biochemical investigation of, in Olympic athletes .....	459

## INDEX TO VOLUME 3

Urine—Continued	PAGE	Viruses—Continued	PAGE
composition of, after ingestion of glucose	696	filtrable, of typhus	319
in complement fixation reaction for tuberculosis	332	filtrable, symposium on 525, 528, 529, ... 530, 530, 532, 532, 533, 533, 534, 534	318
intestinal putrefactive products in	475	kryptantigenic	318
iodine, determination of	346	Vital Capacity of negro race	835
number of casts, red and white blood cells and epithelial cells in normal individuals	513	Vitality, distribution of differences in, among individuals	549
pentosuria, carbohydrate metabolism in	283	Vitamins, C, determining antiscorbutic value of foodstuff by histological examination of teeth	1042
polyuria, effect upon kidney of rat	1036	calcium, vitamin C, vitamin D ratio in diet; effect on permeability of intestinal wall to bacteria	872
porphyrinuria: See Hematoporphyria		deficiency, influence on experimental tuberculosis	718
sediment of normal individuals	108	Washington University, Radiologic Institute	1029
specific gravity, determination of	344	Wassermann Reaction and precipitation phenomena	1046
sugar	118, 474	antibodies against homologous circulation lipoids in	564
sugar, lactose and glucose calculation	511, 735	antigens, preparation of	513
Urobilin in new-born	119	effect of treatment on	880
Uterus: See also Endometrium		immunological nature of principle in serum responsible for	324
cervix, chancre of	120	origin of syphilitic blood changes and characteristics of antispirochetal serum	883
choriocarcinoma of, complicating pregnancy		union between antigen and antibody in	725
hypertrophy, production from serum of pregnant women	839	Water metabolism	833
lipomas of	732	metabolism; sugar metabolism in dehydration	101
new glass chamber for Schultz-Dale uterine strip method	*237	Western Reserve University, Institute of Pathology	97
Vaccinia Virus, cultivation of granules of.. relationships of epithelioma contagiosum virus to	125 475	White, W. C.: Parasitology of tubercle bacillus	84
studies on	530	Wilson, F. L.: Experiments with cellophane as sterilizable dialyzable membrane	*239
Vagina, infectious sarcoma of, in dogs	*193	Wilson's Syndrome: See Hepato-Lenticular Degeneration	
secretion, method of obtaining without vulval contamination	344	Wollstein, M.: Renal neoplasms in young children	1
Vasa Efferentia, ligation of	832	Wounds, bullet, of chest; murder or suicide?	340
Vernes Test for tuberculosis	556	bullet, of cranium	1067
Veronal poisoning and veronal excretion	1069	bullet, of head; murder or suicide?	146
poisoning, distribution of veronal in organs in	893	gunshot, homicidal, of head, in unusual localizations	339
Verruga Peruana: See Oroya Fever		infections, anaerobic	150
Virilism, carcinoma of suprarenal gland with	728	stab, of back, suicidal	1068
Viruses, filtrable, are certain of the ultra-viruses, filtrable stages in life cycle of ordinary bacteria?	533	Xanthochromia of spinal fluid in newborn	460
filtrable, cellular inclusion bodies in diseases due to	528, 1052	Xanthoma Cells in breast	467
filtrable, cytology of fowl-pox	1052		
filtrable, from Dermacentor andersoni	308		
filtrable, in diseases of plants	530		
filtrable, in submaxillary glands of guinea pigs	870		
filtrable, new group of, the Borrellina	129
